

Tombstone Epitaph.

VOL XII

TOMBSTONE, COCHISE COUNTY, ARIZONA, SUNDAY, MARCH 15, 1891

NO. 121

TO TOMBSTONE EPITAPH.

PUBLISHED EVERY SUNDAY BY S. C. BAGG

Tombstone, Cochise County, Arizona.

ENTERED IN THE POST OFFICE AS SECOND-CLASS MATTER.

The third House made quick work of the passage of the city economy bill.

GIVE Arizona a company of rangers and it will be casting bread upon the waters.

Tax fee bill is condemned by office holders and citizens as well. It is not economy to employ cheap labor.

THE A. T. & S. F. railroad has sent 600 or 700 freight cars to Southern California to transport the orange crop.

THE reign of terror in Cochise and Pima counties during the outbreaks and raids of hostile Apaches will be a thing of the past with a properly equipped company of rangers.

IN Hungary a lottery has been authorized to raise 8,000,000 florins for the use of the Protestant church. Protestants do not go hungry in that country.

THE San Francisco Call utters another protest against the removal of the Geronimo Apaches to New Mexico. But they are there and protests are of no avail.

THE clause in the fee bill making it take effect July 1st is contrary to the Harrison act. An office can be abolished, but it is doubtful even if that can be done to take effect till the end of the incumbent's term.

ALL machinery used in the manufacture of sugar from beets raised in Arizona is to be exempt from taxation for ten years. That is the right kind of a spirit to induce capital to come to Arizona.

THE post office inspector did the grand in Graham county last week and stopped the issue of the Bulletin of that county from going through the mails because it said that Sam Drachman sells lottery tickets. The editor of that paper pays his compliments to the midist clothing parlor of the inspector's boss in a most becoming manner in this week's issue.

ADVICES from Pine Ridge agency indicate that the plan of the War department to enlist 2000 Indians is a total failure. It was the intention to recruit two companies of the 1st Infantry from bucks of the Sioux tribe before the departure of the regiment for its regular station at California, but after months of canvassing the regiment returned without its Indians. They objected to going so far away from their native soil, besides they did not fancy the duty of infantry soldiers. They all want to be cavalymen.

Sonora News.

John Dart came in from Nacoari this morning and brings a few items that will be interesting reading. The gold excitement about eighteen miles from Fronteras is setting the Mexicans wild and they are rushing in there in big numbers. From what he heard the diggings are about ten miles wide and over thirty miles long. He has seen chunks of gold weighing a half pound and many from one to five ounces. A few Americans are going in among whom is Van Dorn, well known in this vicinity, who is doing well. All of the gold is washed out with the primitive batilla or Mexican gold pan. Water, which has hitherto been scarce, is now so plentiful that it is a drawback in the working of the ground.

P. W. Smith and son are working the Adams mine and are putting up arastras to determine the practical value of the rock and if satisfactory a mill will be placed on the property. This mine was owned by Adams, who was killed by Apaches last summer, and is a few miles this side of Nacoari.

The San Pedro Mining Co., in which Richards brothers are interested and for whom Bush was working at the time of his murder, have offered \$2,500 reward for the apprehension of the murderer. So zealous are the Mex-

ican authorities to bring the fugitive to justice that they arrested Mr. Dart upon his return to the mine after his recent trip to Tombstone. It was only after much trouble and annoyance that he was released. The man who committed the crime is still at large and it is thought he is still in Mexico.

The San Pablo company have an immense amount of machinery a Fairbank which will be shipped to the mine via Bisbee.

Bucklen's Arnica Salve.

It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by J. Yonge.

That's different.

Dr. Acker's English Pills.
Two are active, effective and pure Forsick headache, disordered stomach, loss of appetite, bad complexion and biliousness, they have never been equaled, either in America or abroad.

Reports from Oklahoma would indicate that trouble between the white settlers and negroes, who have recently entered the Territory from all parts of the south, is likely to occur. The whites have organized a band in the nature of whitecaps, which by threats and intimidation are trying to cause negroes to leave the country. The negroes are very numerous and have returned threat for threat and have openly discussed burning the town if the whites put into execution their threats.

A few days ago while sitting in Elder Bros' drug store at Tingley, Iowa, Mr. T. L. Dyer a well known citizen, came in and asked for something for a severe cold which he had. Mr. Elder took down a bottle of Chamberlain's Cough Remedy and said: "Here is something I can recommend. It commands a large sale and gives genuine satisfaction. It is an excellent preparation and cheap." Mr. Dyer purchased a bottle and the next day when we saw him he said he was much better, and the day following appeared to be entirely restored. This is a specimen of the effectiveness of this preparation.—[Des Moines Mail and Times.]

H. Peto, druggist, sells the above mentioned remedy.

Col. Hafford's row of buildings on Allen street are attracting much attention in their new dress.

Joe Jennings and George Lawrence, with a pack train of six burros, outfit Monday and on Tuesday left for an extended prospecting tour. They will go to Phenix, where they will fully equip, and proceed to Prescott and on to the Needles, where they intend reaching in about six months. From that point they will proceed to the Grand canyon, prospecting the entire journey. It is hoped they may be well rewarded.—[Stockman.]

J. M. Holt, the Montana cattle buyer, returned to his northern home early in the week. He purchased in Southern Arizona about 8000 head of feeders, of which 2500 were purchased from the Sierra Bonita company. All the cattle purchased will be loaded for shipment at this point about May 10th. H. Tusler, also from Montana, was in town yesterday, accompanied by Frank Proctor, but had made no purchases; however, he has several outfits in view.—[Stockman.]

Ralph Halloran tells the Albuquerque Democrat that a trip from Phenix to Maricopa costs \$20. The Indians are coining money taking passengers across the rivers in flatboats.

They have river commissioners in New Mexico whose business it is to watch the streams and report hourly during rain storms and freshets.

The Stein-Wood combination carry their own scenery with them.

BOND.

Of Allen R. English, as notary public.

BIRTH.

March 10th, to the wife of L. H. Roter, of Benson, a daughter.

Their Only Medicine Chest.

William W. B. Miller, Deer Lodge Montana writes:

"I have been using BRANDRETH'S PILLS for the last thirteen years, and though I have had nine children, I have never had a doctor in the house except three times, when we had an epidemic of scarlet fever, which we soon banished by a vigorous use of BRANDRETH'S PILLS. I have used them for myself, two or three a night for a month for liver complaint, dyspepsia, and constipation. In diarrhoea, cramps, wind colic, indigestion, one or two BRANDRETH'S PILLS fixed the children at once. A box of pills is all the medicine chest we require in the house. We use them for rheumatism, colds, catarrh, biliousness and impure blood. They never have failed to cure all of the above complaints in a very few days."

A cowboy boarded a train at Win-alow on the Atlantic and Pacific road the other day and went to bed in the sleeper with his boots on. When the conductor remonstrated with him he drew a six-shooter and the conductor drew off and landed him in the other end of the car all in a heap. The cowboy who monkeys with that road forgets that they employ only fighting men.

Another artesian water bill has been introduced which ought to be satisfactory to the most exacting citizen. It provides for payment by the county of a bonus of \$5000 if water is found which flows 17,500 gallons in twenty-four hours. It gives also to the person putting down a well \$1.50 per foot for expenses while digging the well the first 500 feet, increasing the price \$1 for each additional 500 feet.

STEEN AND WOOD.

A large and appreciative audience gathered at the Metropolitan Theatre last evening to see the Steen and Wood combination. The leggedomain and ventriloquism of Mr. Wood were cleverly rendered and created a great deal of amusement and for his cornet imitations, he was recalled twice.

Mr. Steen and his gifted wife are the talk of Sacramento on account of the brilliant and interesting exhibition of their marvellous powers of mind-reading and the art of memorizing. This character of the entertainment is extremely curious and fascinating, for, while it excites and captivates by an intensity of interest and subtle charm,

it baffles the reason by its occult incomprehensibility, and challenges admiration and awe that the human mind is capable of such triumphant and imperious powers as to render submissive the ideas and emotions of others. Professor Steen continually assures the audience that there is nothing supernatural in their achievements of mental power; that it is merely an intellectual feat. The desire of Mrs. Steen and himself, he says, is to release people from the thralldom of spiritualism and he openly challenges any spiritualist to bear their test.

Forecasted Hopeless, Yet Saved.
From a letter written by Mrs. Ada E. Hurd of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in and finally terminated in consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for my Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles; it has cured me and thank God I am now a well and hearty woman." Trial bottles free at J. Young's Drugstore, regular size, 50c and \$1.00.

NEWS BY WIRE.

—Representative Simpson, better known as the "cockless statesman from Kansas," created a sensation yesterday afternoon among the Maryland farmers now in convention, when he interrupted the proceedings to deny the statement that he did not wear half hose.

—The members of the board of control of the World's Fair have been considering the financial question for several days, and the result will be a report recommending a reduction of salaries and expenses in the administration department of the commission.

—Jack Welch, of Peoria, knocked out Joe Tansy, who claimed the middle weight championship of the south in a 19 round battle near Burlington, Iowa.

—The supreme court decided that the law under which the board of city affairs of Cincinnati was brought into existence was unconstitutional.

—Rumors concerning the formation of a great trust to embrace all manufacturers of cigarettes and plug tobacco in the United States created much interest among tobacco men. The Duke, Kimball and others are already united in an American tobacco company and it is said the company is endeavoring to buy up the plug tobacco manufacturers.

—All mail due from Denver since Monday is again tied up in a snow blockade on the Denver and Rio Grande road near Trespiderias. From Chama word comes that 18 miles of track is under snow from five to forty feet in depth. This is being cleared at the rate of a mile a day, so that no trains can go west of Chama till April. Meantime it is feared that there will be much suffering among people at stations as far west as Durango.

—The Bank of France has come to the assistance of the Societe Des Depots De Comptes Courants, preventing their failure.

—Corporal John B. Tanner has been appointed a member of the State railroad and warehouse commission.

—There are rumors that information has been received at Hamburg by private cablegrams from Chili to the effect that President Balmaceda has been murdered.

Kupezay.

This is what you ought to have, in fact, you have it, to fully enjoy life. Thousands are yearning for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters, if used according to directions and the use persisted in, will bring you Good Digestion, and the demon Dyspepsia and install "Kupezay" in its place.

One man at least is satisfied with the heavy rains near Yuma. The superintendent of the Yuma copper mines writes to his company that the rains in Arizona have increased the flow of water in the canyon where the reservoir is being built to 500,000 gallons of water a day.

LOCAL HAPPENINGS

From Saturday's Daily.

Guy Powell has returned from an extended trip east. He visited his old home in Illinois and spent several days with his sister at Fort Worth.

Mrs. W. C. Reid returned yesterday from an extended trip to California.

E. A. Shattuck and family will soon leave for the east where they expect to remain for an indefinite period. Their absence from Tombstone will be regretted by a multitude of friends who hope to see them return before many months.

The U. S. Supreme Court will hear arguments pro and con on the validity of Arizona's lost laws on Monday next. Until this point is decided no court will be held in Tombstone.

R. W. Wood will probably remain at Phenix with the balance of the third house until Thursday when the agony will be over.

As soon as passengers bound for Phenix reach that city they walk down the street like a band of holiness, singing, "No more rivers to cross."

W. H. Stilwell is back from Tucson.

Cal Cox, foreman of the Chiricahua Cattle company's ranch in Graham county, has just finished putting in 900,000 pounds of beef at the San Carlos agency.

El Paso is about to go through the agony again of electing a mayor.

B. Hattich and son returned to-day from a month's absence in California.

John Slaughter says that the Indians are scoring every one out of his section of the country.

Mrs. C. S. Fly has gone to Bisbee to spend the Sabbath with her husband.

The Herald predicts that the fee bill will never go through the Legislature.

Ex-Sheriff Slaughter left for the San Bernardino ranch this morning after spending a day in Tombstone. He has made another shipment of cattle to the City of Mexico and finds that market very satisfactory.

Next Thursday is the last day of school at the Phenix controversy.

George Myers will leave to-morrow for Globe, where he will remain for a few weeks, while his father, who is managing the branch store there, takes a vacation.

A magnificent specimen of galena ore from Dr. Goodfellow's claim in Sonora, was brought up to-day. It was as big as a bucket and required the strength of a solid man to raise it from the ground.

An enterprising native of our sister State of Sonora brought up twenty ounces of gold yesterday which he had purchased from the miners at the new diggings.

Hank Lowery, one of the pioneers of Tombstone, died this morning at the hospital of bronchitis. He had been a sufferer for over a year. He was well known all over the coast and had made mining his business for many years. The funeral will take place to-morrow from the undertaking parlors of C. B. Tarbell, at 2 o'clock p. m.

A telegram received from Phenix to-day at this office reads as follows: "The bill regulating the price of ice in the Territory passed the House last night. The Council has passed the Australian ballot law." What the meaning of the former bill is the reader can guess. It is too deep for the PROSPECTOR.

Mr. Nugent expects to deliver his lecture on the "Hawaiian Islands" during the meeting of the Teachers' Institute. Providence permitting, the lecture will be given in the Presbyterian Church on the evening of March 27th. A small admittance fee will be charged and a portion of the proceeds devoted to the use of the recently reorganized Presbyterian Sunday school.

Captain Bullis, Indian agent, at San Carlos, is going to solve the fuel problem by exploring the coal fields with Indian labor.

One of the most meritorious bills that has ever come before the legislature of Arizona is that one which provides for a small body of rangers to hunt down the renegade Apaches in the territory at the call of the governor, and during his will and pleasure. It would receive the support of every citizen of the territory without an op-

posing word were it submitted to the people, and how much more should our legislators support it. The passage of this bill will settle the Indian question in Arizona for all time to come.—[Phenix Herald.]

Had the woman suffrage bill become a law "Spanish Mary" and "Irish Kate" would have had a great political pull in the first ward in Tucson.—[Graham Bulletin.]

Rev. F. W. Downs will preach in the Methodist Church Sunday morning, on "The religion man wants, and the one he needs." Services at 11 o'clock. Sunday school at 12 o'clock. At night, commencing at 7:30 o'clock, there will be a discourse on "The Millionaire and the Tramp." All are cordially invited to attend.

Preaching in Presbyterian Church to-morrow at 11 p. m. and 7:30 p. m. Morning text—Galatians, chapter vi, verse 17, "A Sermon for Christians." Evening subject, "Leprosy and Sin." Sunday school at 10 o'clock a. m. You are cordially invited to attend all these services.

Chas. G. Johnston, assignee of the estate of Wm. Kieke, has filed his final report which shows that the debts have all been paid, and receipts taken for every dollar are on file. Mr. Kieke enters the field again with a load of his mind and the reputation of having made an honorable settlement. Both he and Mr. Johnston are to be congratulated upon their management of the affairs of the business.
